## ALUMINIUM VENETIANS

European styling  
and versatility.

**Aluminium Venetians offer excellent light & privacy control with timeless style.**

### **Modern Design**

Available in two slat sizes, 25mm and 50mm, with a contemporary colour palette inspired by Australian home interior trends. Slat, ladder braids, and cords have been designed to coordinate with hardware for a seamless look.

### **Superior Performance**

Slat are extensively painted to deliver superior performance and ultimate flexibility with a no-chip or flake finish. Resistant to kinking and corrosion all components have been produced with high quality plastic and steel materials offering a reliable blind for many years to come.

### **Smooth Operation**

Featuring a wand and cord operation offering smooth and precise control of light with a simple open and close movement of the slat.

### **Energy Benefits**

Aluminium Venetian Blinds are effective reflectors of light and heat. This means less heat emanating from the windows reducing the need for cooling.

All slats are engineered and manufactured in Europe from 0.22mm gauge high grade Aluminium.

# Venetian systems

## 25mm System

Featuring a contemporary square headrail, the system is complemented with a smooth curved bottom rail which sits neatly at the base of the slats offering a modern finish.

## 50mm System

The classic 50mm System is designed especially for use with the wider slats. The system can cover openings as large as 10sqm and accommodate most window applications.

Between Glass

# System options

## Between Glass

Designed to fit between glass panels of a double glazed window, the system can be adjusted with a tilt control knob, with an internal or external cord raise for maintenance purposes.

## Duo-Flex® Operating System

Slats are grouped to enabling maximum control of light levels by adjusting the various sections of the blind.

## Twi-Nighter® Venetian Blinds

Eliminates light filtering through slats when closed through specialised positioning of rout holes, this offers greater privacy and light control.
